NMIT is a unique place with people from diverse cultures. Over a period of time, our college has shown that it's like a rainbow; where different people, from different cultural backgrounds dress up in their traditional outfits and add colors to the Ethnic day. Yes! The ethnic day celebration in NMIT was a day to remember, just the Nmitian way; every student was dressed at his/her best and presented them in an enticing manner. Unity in diversity – well, that summarizes the entire thought! We could witness the mix of all the traditions. The best part of the day was, absolutely, the flash mob in the quadrangle. It was really fun to be a part of a wonderful day.

It's a time where we are completely busy in technologies and other gadgets; we have almost forgotten to celebrate the spirit of our culture and tradition. But, I must say NMIT gives us a chance every year to celebrate the rich cultural mix of different states and regions of our country; to blend into other cultures and traditional practices as well.

In an era of modernization and westernization, the celebration of such special days, Give a feeling of respect toward our culture along with other cultures. It makes us respect and love all the other cultures.

NMIT College conducted an Ethnic Day on November 24th 2022. The day was celebrated in the most beautiful way and whole campus seems to be charged with an ethnic atmosphere.

Karnataka celebrates this as a festival. Without regard to caste or religion, Kannadigas from all around the state participate in the festivities. People dress traditionally on this day. Males can be seen wearing a yellow and red turban, and women are adorned in yellow and red saris. The celebrations are signalled by vibrant paintings bearing the image of the Bhuvaneshwari goddess painted on an extravagantly decorated chariot.
